

THE BOA®  
**GUARANTEE**

**FAST.  
EFFORTLESS.  
PRECISION FIT.**

The BOA® Fit System

THESE ARE MEDICAL DEVICES.  
USE THEM ACCORDING TO THE INSTRUCTIONS  
FOR USE OR LABEL.

**1.**  
To loose the Boa® Fit System, pull the dial up  
until you hear a distinctive „CLICK”.

**2.**  
Then, loose tightened laces on both sides  
of the knob carefully.

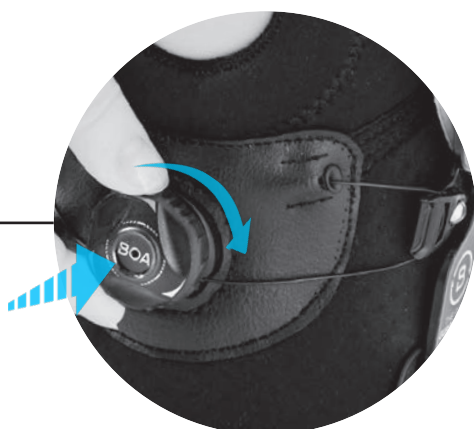

**CONNECTED** bringing you closer to your equipment, the **BOA® Fit System** delivers improved agility, response, and control.

**FAST** the **BOA® Fit System** allows you to get your gear on and off fast, no matter the conditions.

**MIRCO-ADJUSTABLE** make instant micro-adjustments for a precise and custom fit, the **BOA® Fit System** improves performance and comfort - anytime, anywhere.

**DURABLE** engineered with high quality, durable materials and rigorously field tested, the **BOA® Fit System** is guaranteed to perform in any environment.

**3.** To tighten the **BOA® Fit System** turn the knob clockwise to achieve the appropriate level compression.

In case of blocking the knob when turning and an inappropriate level of compression of a brace, stop turning the knob and change the brace for a smaller size.

### **ATTENTION!**

Each attempt of turning the knob despite the lock may results in **PERMANENT** damage of **BOA® Fit System**.

# ANKLE BRACES <<<

AM-OSS-03/CCA **4kids** MEDICAL DEVICES

Our AM-OSS-03/CCA ankle brace may be for preventing and treatment after injury. It is also available for adult.

## INDICATIONS

- ankle sprain and dislocation
- repetitive ankle sprains
- treatment after cast immobilization
- soft tissue and ligament injuries

## BENEFITS

- perfect fitting and compression
- high quality
- innovation
- easy application
- support and stabilization

## AM-OSS-05/CCA

**AM-OSS-05/CCA** ankle brace is our bestseller. Complex solution for injured ankle. Safe and effective.

### INDICATIONS

- ankle sprain and dislocation
- repetitive ankle sprains
- treatment after cast immobilization
- soft tissue and ligament injuries

### BENEFITS

- perfect fitting and compression
- high quality
- innovation
- easy application
- support and stabilization

## >>> FOOT DROP BRACES

## OSS-OS-02/CCA

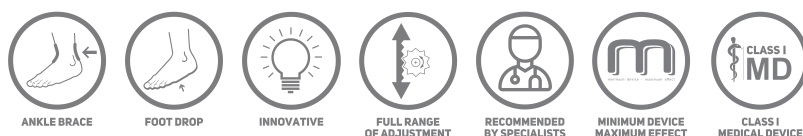

**AFO brace FOOT-TOP (OSS-OS-02)** improves to muscles functions by support the active gait for people with muscle weakness and nerves degenerations or other disorders.

### INDICATIONS

- foot extensors weakness
- stroke or bleeding in the head
- multiple sclerosis (MS)
- toes or partly foot amputation

### BENEFITS

- perfect fitting and compression
- high quality
- innovation
- easy application
- support and stabilization

## AM-OSS-21/CCA

**AM-OSS-21/CCA** brace is an excellent product for foot drop treatment. The brace is lightweight and comfortable. It provides immediate effect.

### INDICATIONS

- limited dorsiflexion
- extensor muscles weakness and spasticity as an result of: stroke, SM, CP, common peroneal nerve dysfunction etc.
- diabetes
- injury and trauma

### BENEFITS

- perfect fitting and compression
- high quality
- innovation
- easy application

## BRACES LOWER LIMB <<<

### ATOM ACL/CCA

Functional knee brace **ATOM ACL/CCA** is an excellent solution for anterior cruciate ligament protection. The brace has innovative ACL pad with BOA® Fit System which reduces the anterior drawer syndrome.

#### INDICATIONS

- mild or severe ACL, PCL, MCL and LCL instability
- rehabilitation after ACL or PCL reconstruction
- mixed injuries ACL/PCL
- knee hyperextension

#### BENEFITS

- the best protection for the knee
- precise fit of the product
- waterproof
- high quality

## BOA® Fit System

The system is characterized by firm fastening that is non-elastic, easy and secure. There is impossible to loose (only in case of damage) it what guarantees the best stabilization.

Our **BOA® Fit System** provides different levels of compression. It's based on differential polyamide grommets, steel wires covered by plastic and knobs. The additional equipment is the special element that is easy to attach what allows to modify device's shape or circumference.

The **BOA® Fit System** is the compression solution so you can use it only after putting the brace on the body.

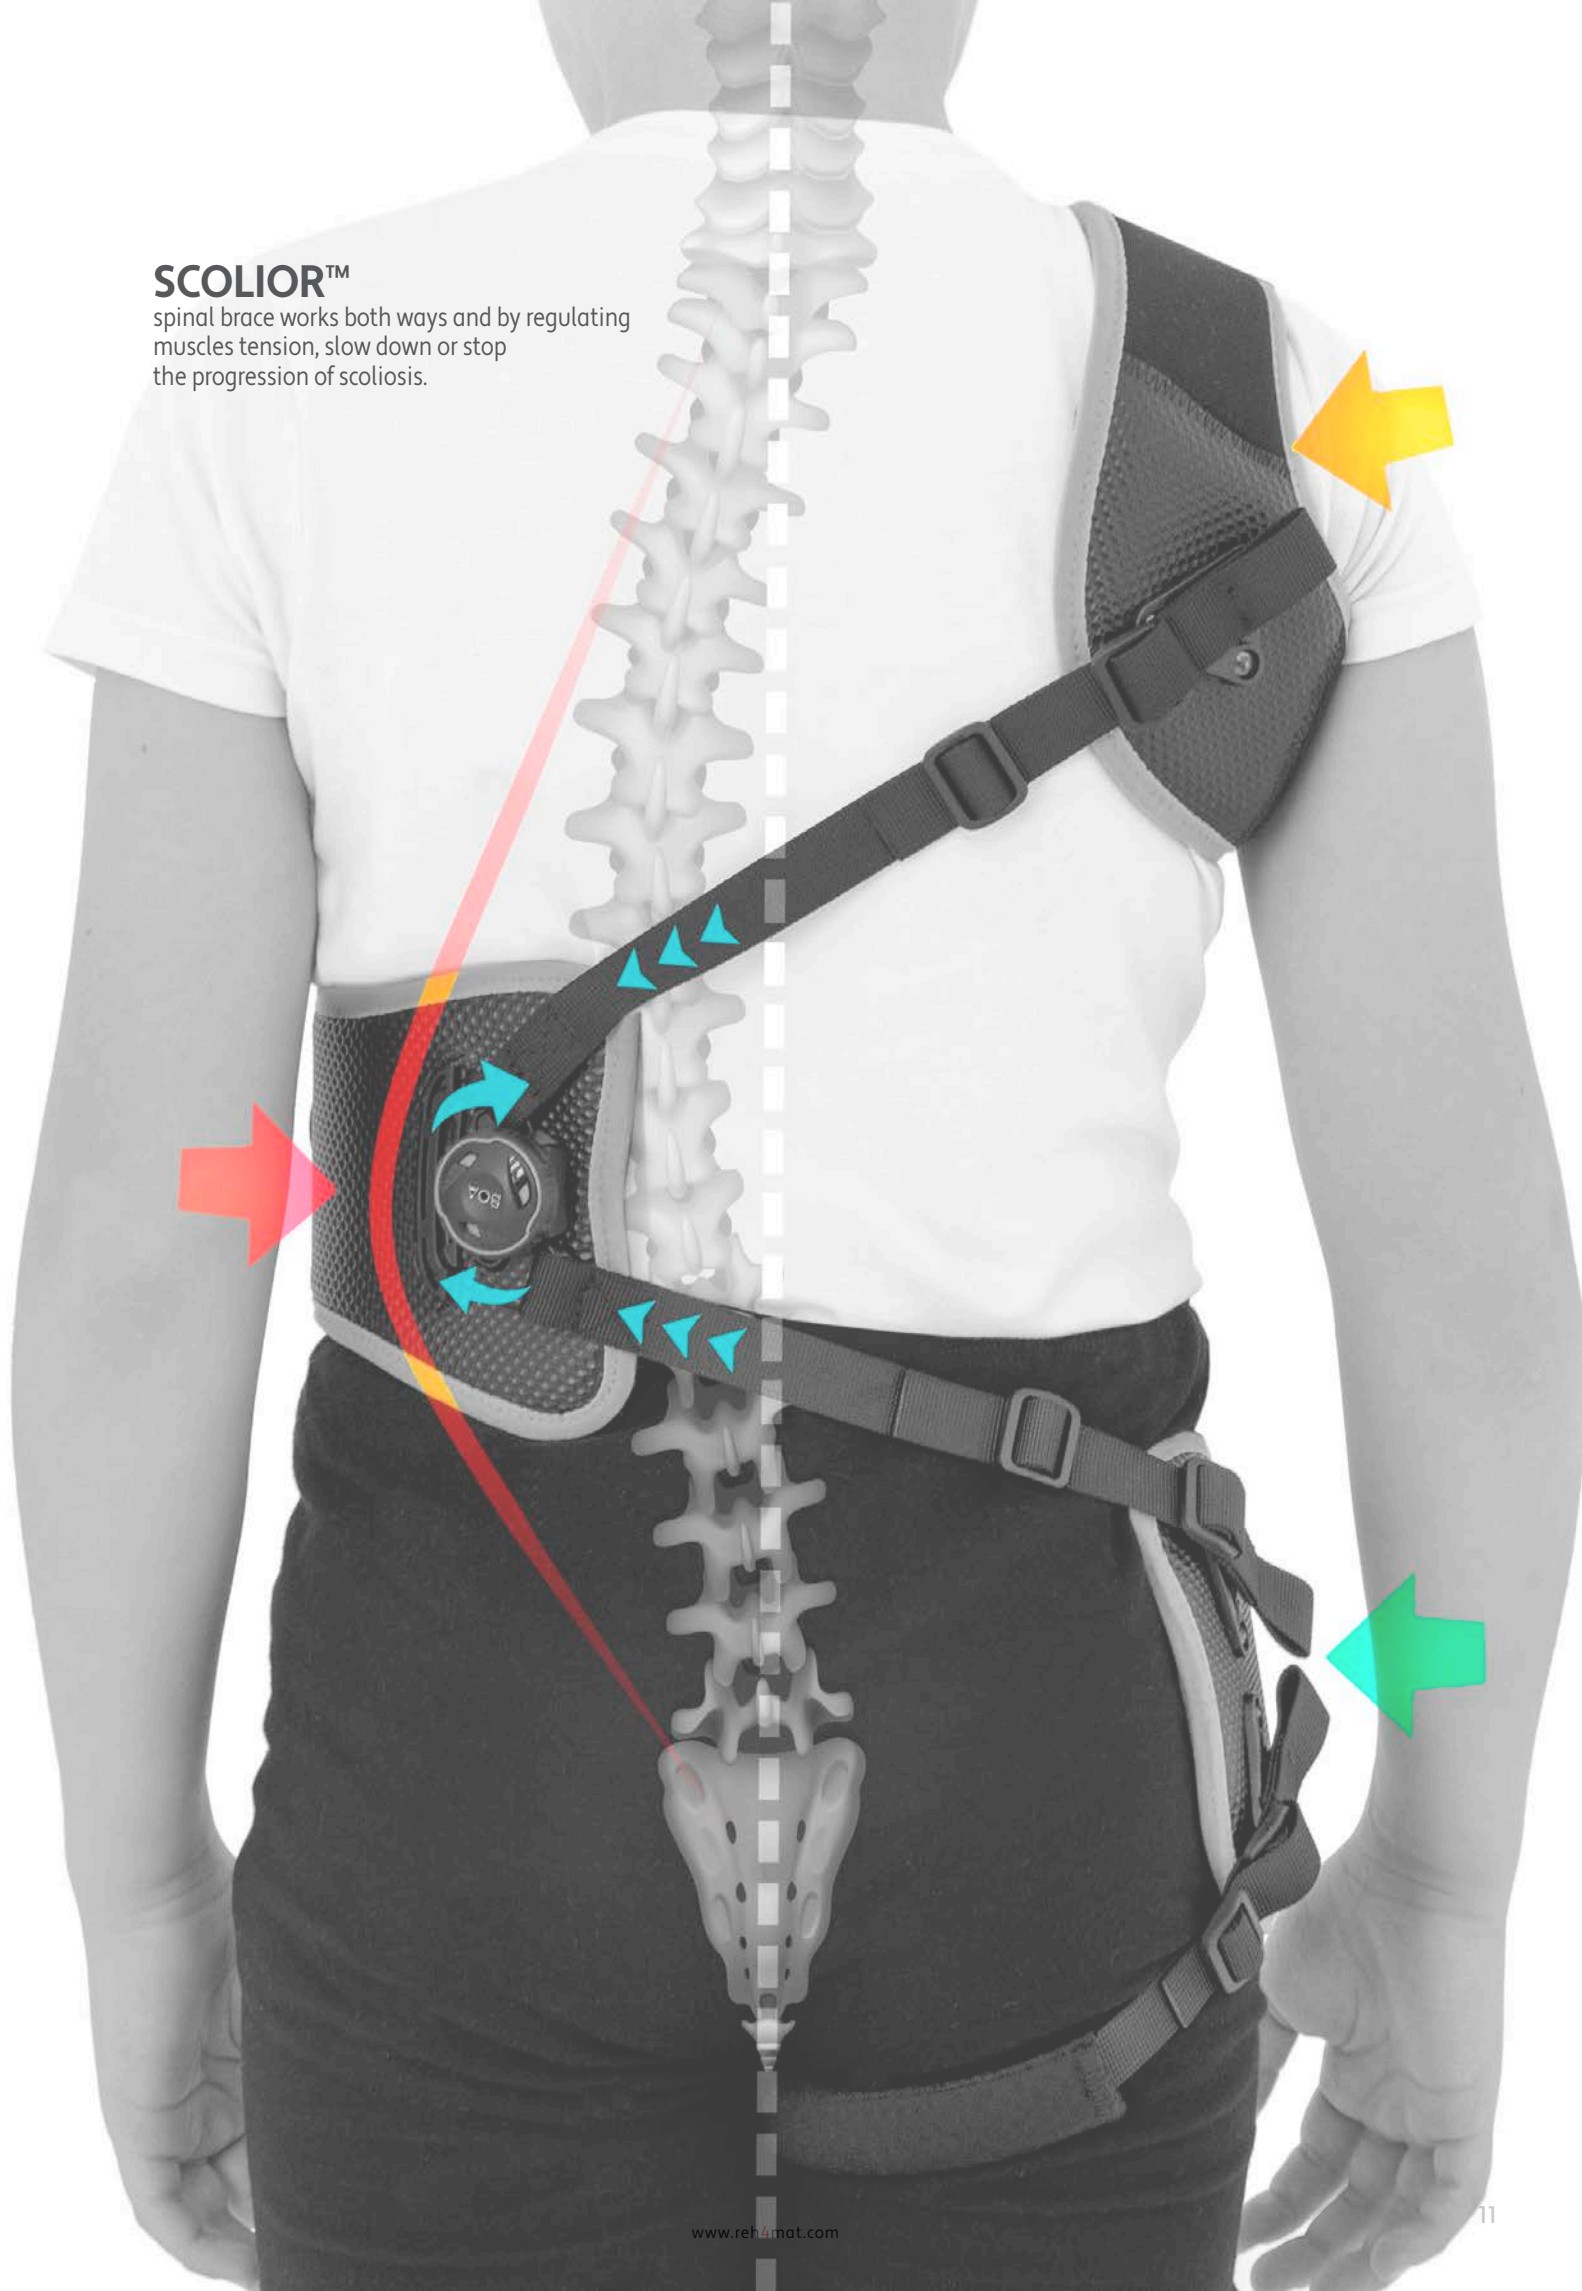

**BOA® Fit System** is maintenance-free system that does not require special service or conservation

## SCOLIOR™

spinal brace works both ways and by regulating muscles tension, slow down or stop the progression of scoliosis.
