

HIP BRACE

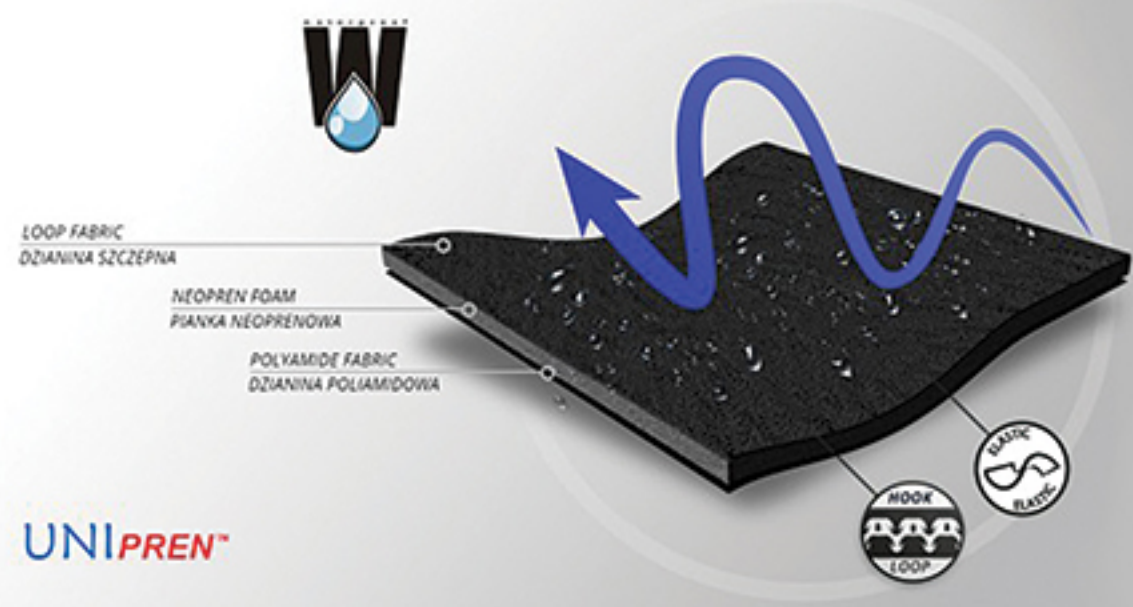

WITH ROM ADJUSTMENT

AM-SB-01

Support for the pond hip

ADVANTAGES OF ORTHOSIS

- ★ **ORTHOSIS HIP** with side splint with ROM adjustment in every 15 degrees. The splint is covered in special lateral pocket what allows to bring it out and wash the brace.

- ★ **MATERIAL UNIPREN** - innovative raw material for reliable and effective stabilization.

- ★ **OPEN CONSTRUCTION** - has wrap around design for perfect fitting.

- ★ **ADJUSTABLE FASTENERS:** frontal and thigh, what provides good fitting to the patient's body.. In addition, the brace holds orthopedic stays, which support the hip joint

- ★ Left/right available.
